

Prospect Locates Net With Unerring Accuracy to Beat Waldo in Upset

PRESBYTERIAN FIVE WINS TO TAKE FULL POSSESSION OF LEAD

Defeats Reformed with Second Half Attack; Waldo Loses in Final Seconds.

SOME teams are good all the time, some teams are good none of the time and some are good part of the time. Apparently all of the three classifications are included in the list of entries in the Marion Y-Church circuit. The latest team to be listed under the latter classification is Prospect.

Prospect went on some kind of an unconscious shooting spree last night and when the smoke of a desperate conflict had cleared away Waldo was found to be on the short end of a 29 to 25 score, the first time this year it has been defeated. The Waldo beating leaves the rambling Presbyterians as the only unbeaten team in the circuit.

In other games played last night First Reformed gave the Presbies a hard fight in the first half but succumbed quite peacefully to a furious second half attack of the league leaders. The score was 27 to 12. Central Christian No. 1 five handed St. Mary's the seventh consecutive beating of the season 21 to 15, but had to fight all the way to do it.

Prospect gave some notice of what they intended doing as early as the first period when it held the Waldo quiet to an even 1-1 score for the quarter. In the second half the winners started doing things in a big way, shooting baskets with unerring accuracy and generally making themselves a nuisance to the Waldo players. The count at the half stood 19 to 10 for Prospect.

Waldo put on a brilliant rally in the third period that brought the score to within three points of a deadlock, the count at the end of the third quarter standing 23-20. Waldo again took the upper hand in the conflict in the early part of the fourth period and battered its way through the fighting Prospect defense to take the lead with but a minute to play.

Unfortunately for Waldo they don't terminate games until the full playing time is over. As a result Prospect today enjoys the honor of having knocked its bitter rivals out of a deadlock for the first time.

With 10 seconds remaining for play, Russell, Prospect forward, looped in the two pointers that regained the lead for his team and gave them their second victory of the year.

W. Rengert made a last desperate battle for a Waldo victory when he grabbed the ball on the tip off and heaved it towards the net but it refused to drop through, rolling around the rim and off the outside.

The Presbyterians launched an attack in the second half that left the First Reformed boys dizzy before the third period was over and gave the white-clad boys their seventh straight win for the year. Eddie Sawyer played a brilliant game for the losers.

Central Christian No. 2 playing without two of their first stringers was forced the limit to stop the St. Mary team. St. Mary led at the half 9-7 but relinquished its lead in the final period.

In the intermediate circuit Epworth defeated Forest Lawn 33 to 11. Trinity Baptist beat Reformed 27 to 21. Calvary edged the Christians 10 to 18 and First Presbyterians were winners over Eite Memorial 17 to 7.

In sharp contrast to the football team, Auburn's basketball team won their first three starts this year.

BY BOB KIRKPATRICK

I DON'T feel so well today. Just after breaking out with the prediction that Waldo was "certain" to go through the Y-Church basketball schedule undefeated until it meets the Presbyterians on Feb. 7, along comes a quintet that up to last night couldn't beat anyone but themselves and hands the co-leaders a beating. How it happened, no one has figured out yet but I have a decided hunch that the reason is contained for the most part in the gentleman of no small proportions playing at guard for Prospect under the very much misleading monicker of Tiny Johnson.

It's all wrong. Tiny isn't tiny either in proportions or ability. He didn't score any points for his team. He didn't need to. He left that for the rest of the team. Aside from that he did just about everything except stand the ball. In fact I'm not sure he didn't do that a few times. He couldn't have had it so often if he hadn't. He wasn't the whole team but he was a big share of it.

The defeat for Waldo almost sent the hopes of the Lutherans crashing earthward again for the third consecutive season. Two years ago the Lutherans fought their way into a high position but didn't quite win the title. Last year they won it the first half of the year and then lost out to the Christians in the second half. So far this

season they had beaten everything in their path—until they met their old rivals, Prospect. Now unless someone rises to the occasion and sets the Presbies down in an unlooked for defeat the championship is almost certain to stay in Marion. It is possible that Waldo will beat the Presbies on Feb. 7, deadlock the lead again and then win the title in a playoff, but quite improbable. But then—it was quite improbable that Prospect would win last night. After that upset, I'll concede that anything is possible.

RAMBLERS WIN

Fast Stepping Amateurs Defeat Marion Tigers 28-18.

The Marion Ramblers, fast stepping amateur quintet handed the Marion Tigers a 25 to 19 defeat last night on the Steam Shovel court. The Ramblers have been stepping at a fast clip since their organization a few weeks ago, winning a majority of their games.

Teams who would like games with the Ramblers should get in touch with McCreey at 2838 in Marion.

Company B Is Winner Over East End Stars

Company B of the O. N. G. won its sixth straight victory last night on the Armory court, defeating the East End stars 57 to 26. Manahan was high scorer for the game with 10 baskets. Boulton followed with 12 points.

SHELBY WHIPPETS TO CLASH WITH HARDING BASKETEERS FRIDAY

Ashland Meets Mansfield on Hilltoppers' Court; Bucyrus at Galion.

BY BOB KIRKPATRICK

WITH the Ashland Hilltoppers firmly entrenched in first place for at least two weeks, action this week in the North Central Ohio scholastic league will center around those teams now sharing in the four-way deadlock for second place. Shelby will draw the major share of attention of the local fans inasmuch as the Harding Presidents will be hosts to the Whippets on the floor of the Star auditorium Friday night.

Another second place outfit, Mansfield, will attempt to halt the pennant march of the Ashland quintet on the A-Hand court. The fourth challenger for second place honors, Galion, will face the easiest opposition of the evening when it engages Bucyrus on the home floor of the Orangemen.

Naming Winners Difficult. Picking winners for the Friday night games is more difficult than for some time. Ashland will be called on to face a rapidly improving Mansfield five with two regulars, Rybolt and Matthews and one substitute, Rankin, missing from the squad. All three were victims of first semester graduation.

Since Clayton Luckie, the third of an outstanding trio of colored athletes, returned to the Mansfield squad, the Tigermen have been making rapid strides towards a better team. With Rybolt, the best defensive cog in the team, and Matthews, the chief point getter also among those not present, on the Ashland team, it will be entirely possible for Mansfield to hand the Starmen their first beating. It doesn't look that way though. Starn has been working on replacements for both of Rybolt and Matthews and it is expected he will have a team that nearly matches that of former contests this year. Ashland will be favored to beat Mansfield.

If All Depend. Whether or not Harding is able to come through with the third successive victory, seems to depend more than anything else on whether the Hobermen experience a relaxation following their spirited battle against Galion.

Harding is much stronger now than at the first of the season. What is more, they are showing constant improvement. Despite the fact that Shelby boasts the league's high scorer in Gus Cuberton, Harding should rule a slight favorite to win. Jack Ling, the sensation of the Marion school and a distinct threat for all-league honors this year will give Shelby's defense a thorough testing. Ling is rangy and fast and is acquiring the knack of hitting the net.

The Harding-Shelby fray should be one of the hardest-fought of the Friday schedule.

Galion Due To Win. Bucyrus is not expected to offer serious competition to Galion despite the disappointing showing of the Orangemen during the last few weeks. Jay Winters has been shifting his lineup periodically in an effort to find a combination that will click but so far has met only with failure. It is not too late yet for the Bucktown boys to cause a flurry in the circuit with some surprising victories but it doesn't look like the Redmen are due this week to start recording victories. Galion is not so weak as might be expected even though it has lost two games in a row.

Herr Schmeling Returns to N. Y. from Homeland

NEW YORK, Jan. 28.—His broad face beaming, Max Schmeling moved into New York today, genuinely happy to be back in the land that voted him heavyweight champion of the world.

The youthful German with the features of a young Jack Dempsey sailed into Brooklyn late last night on the liner Europa, accompanied by his trainer, Max Machon, a dozen pieces of baggage and a cute little dachshund named Cecile.

Max appeared to be in splendid physical condition, eager to get to work on preparations for his title battle in June with young Bill Stribling, Georgia's challenger for the heavyweight crown. He was anxious to explain that, regardless of statements in the papers, he has never made derogatory remarks regarding the New York state athletic commission which recently stripped him of his title.

He insisted he wants to fight Jack Sharkey, feels sure that eventually he will face the Boston sailor in a prize-ring, but for the present

Layton Loses to Pupil in Billiard Tourney

INTERNAL DISPUTES THREATEN TO CAUSE TROUBLE IN BIG TEN

Iowa Seethes with Dissension; Indiana in Difficulty Over Firing of Page.

By The Associated Press.
CHICAGO, Jan. 28.—All is not quiet along the Western Conference front.

In the wake of the era of peace and tranquility that followed Iowa's reinstatement to good standing last spring, many internal disputes and ruptures have broken out. The athletic group, composed of ten of the leading mid-west universities sizzled with excitement today.

Down at Indiana, Coach Pat Page was involved in a dispute with the university athletic board over his resignation and salary differences. It may eventually affect the entire conference.

A sharp reversion of its expulsion from the conference was heard at Iowa where the educational committee of the state house of representatives demanded an investigation of charges that Walter A. Jessup, president of the university, was largely responsible for the conference's ouster order.

Badgers Still Argue. At Wisconsin, the controversy over the retention of Glen Thistlethwaite as head football coach refused to die. Many alumni still fought his backers and while the faculty athletic committee refused to dismiss him at its meeting December 19, the fight against him was carried on.

Added to these cases were the agitation here and there among alumni to get coaches with winning football and basketball ways and an investigation by the conference of the athletic eligibility of several football players—an investigation still marked by secrecy as far as names were concerned.

Newark Meet Tonight Opens Indoor Season

By The Associated Press.
NEWARK, N. J., Jan. 28.—The first of the season's major indoor track and field meets—the Newark A. C. Games—will be held here tonight with an international duel between Ray Conger and Dr. Paul Martin to top the program.

Conger, possibly the finest of America's middle distance runners, and Martin, the Swiss surgeon, are booked to match strides in the 1,000 yards run, a distance at which both are at home. It will be the first start of the season for Martin while Conger made his winning 1931 debut several weeks ago.

Sharing interest with the thousand will be a special sprint series a two-mile run and the Newark 500 yards.

KNOXVILLE, Tenn.—The reason Bobby Dodd, twice all-southern quarterback and named on several All-America football teams, is playing basketball this year, is because he loves it better than personal glory.

"I Hope Your Example Will Compel The Adoption Of Sanitary Methods"

Says
DR. THOS. J. McLAUGHLIN
Chairman State Board of Health, State of Rhode Island

Rhode Island Public Health Commission

THOMAS J. McLAUGHLIN, M. D.
WOONSOCKET, May 21st, 1930.

The American Cigar Company,
411 Fifth Avenue,
New York, N. Y.

Gentlemen:-

Permit me to commend you for your crusade against the old-fashioned method of cigar making which involved the use of "spit" or "saliva." There are many unsanitary processes still employed in industry which are very difficult to eliminate without the aid of industry itself.

Not only the public officer charged with the responsibility of improving conditions of health generally but every one immediately recognizes that the use of "spit" in the manufacture of cigars is not only unsanitary but has latent dangers to health of great magnitude. I feel it incumbent upon myself, therefore, as a public officer charged with protecting the public health to use this means of telling you that in campaigning against such a method of manufacture you are rendering a public service.

I sincerely hope that your example and your campaign will compel the abandonment of such methods of manufacture of cigars by the industry generally and the adoption by all of the manufacturers of sanitary methods in the manufacture of cigars.

You are at liberty to use this expression of my commendation in the furtherance of your laudable campaign for better sanitation.

Yours very truly,
Thos. J. McLaughlin, M. D.
Chairman State Board of Health
State of Rhode Island.

...one of 56 health officials from 56 different points approving Cremo's crusade against spit or spit-tipping.

Every smoker, every wife whose husband smokes cigars, should read Dr. McLaughlin's letter.

"Who are the friends of 'Spit'?"

YOU MAY WELL ASK THIS QUESTION WHEN 56 IMPORTANT HEALTH OFFICIALS HAVE WRITTEN SO STRONGLY AGAINST THE EVILS OF SPIT OR SPIT-TIPPING.

Dr. McLaughlin writes: "Permit me to commend you for your crusade against the old-fashioned method of cigar making which involved the use of 'spit'."

The war against spit is a crusade of decency. Join it...Smoke Certified Cremo—a really wonderful smoke—mild—mellow—nut-sweet! Every leaf entering the clean, sunny Cremo factories is scientifically treated by methods recommended by the United States Department of Agriculture.

STOCK MARKET TRADING WEAK

Board Disturbed Over
Anticipated U. S. Steel Quar-
terly Report.

By The Associated Press.
NEW YORK, Jan. 28.—The share market today was particularly disturbed by the anticipated quarterly report of U. S. Steel. The report, which was expected to show a sharp decline in earnings, caused a general sell-off in the market. The steel stock itself fell sharply, and the decline spread to other industrial stocks. The market was characterized by a lack of buying interest and a general pessimism among investors.

Today in Marion Markets

Groceries, Produce, Meat, Grain, Livestock

With egg prices at rock-bottom today, both grocers and farmers still were having a hard time to move their supply. Lack of demand is responsible for building up an over-supply on the market. Practically all green foods are now imported from southern states or from abroad at present.

JURY HEARS \$50,000 DAMAGE SUIT TODAY

**Lyda Arthur Is Plaintiff in
Action Against Commercial
Steel Casting.**

A jury in common pleas court today was hearing a \$50,000 damage suit brought by Lyda Arthur against the Commercial Steel Castings Co. and J. F. Wise.

Injuries sustained in a collision between an automobile driven by Wise and another in which Mrs. Arthur was a passenger are made the basis of the suit.

The accident occurred on Nov. 27, 1928, at the intersection of Olney avenue and West Columbia street. Mrs. Arthur was riding in a Chevrolet sedan driven by her sister, Mrs. Clayton Morrison, when the car collided with a Cadillac roadster operated by Wise, who at the time was an employee of the Commercial Steel Castings Co.

Four law firms handled the case.

Clark & Arter of Marion and Catley & Coble of Crestline represented the plaintiff, while the defendant's counsel consisted of Mouser, Young, Mouser & Wiant and Guthery, Strelitz & Guthery.

Case Dismissed

A mandamus suit brought some time ago against Probate Judge Oscar Gast by Pauline C. Hepp, administratrix de bonis non of the estate of Joseph Hepp, was dismissed in common pleas court yesterday at the request of the plaintiff.

The suit attempted to compel Judge Gast to file appeal papers on behalf of the plaintiff in a case arising in his court, but Judge Gast held that he was not compelled to file the papers which he said the plaintiff herself must file in the higher court.

The law firm of Morris, Fitzsimmons & Seigworth of Cleveland and Attorney W. P. Moloney at Marion represented the plaintiff.

Named by Court

Probate court yesterday appointed H. E. Kellogg as administrator of the estate of Willard L. Kellogg.

Asks Judgment

Judgment of \$2,503.06 is asked in a foreclosure suit filed in common pleas court yesterday by the Northwestern Mutual Life Insurance Co. against Emma V. Lewis. French Crow is attorney for the plaintiff.

TRAINS IN FIRST AID

Among the things taught representatives of Marion factories in the Red Cross first aid school at the Marion Steam Shovel cafeteria this week is how to bandage a fractured leg, as shown above. The prone pressure method of artificial respiration is demonstrated in the insert.

Flashes of Life

By The Associated Press.

CANON CITY, Colo.—John Walker, bank robber and slayer of a deputy sheriff, is to be hanged Friday, but his mother will receive a letter from him each month for the next 20 years if she lives that long. He has written letters and arranged for their mailing. His mother understands he is serving a 20-year term.

CHICAGO, Calif.—This is the new name of Bay point. There's another Chicago in Kentucky, but folks in the Chamber of Commerce here picked the name because they like the way Chicago, Ill. does things.

PITTSBURGH, Pa.—In a \$3,000,000 church to be erected for the First Liberty Presbyterian congregation by Mr. and Mrs. Richard Mellon will be a mission for hungry and homeless wayfarers, open day and night, with showers, lunch counter and dormitory.

NEW YORK—Flappers, it seems, are responsible for some unemployment. Miss Frances Perkins, state labor commissioner, said at a reception at the home of Mrs. Franklin D. Roosevelt that garment workers instead of catering to the latest fashions, should heed the average middle-aged woman, and they'd have business at a normal pace throughout the year.

HAMILTON, N. Y.—Examination books at Colgate university have covers of brilliant hues. It's the idea of a professor of psychology that the colors take the student's mind off the difficulties ahead of him and then he gives better answers.

NEW YORK—The biggest private yacht is being built at Hamburg for Mrs. Richard M. Cadwalader of Philadelphia, whose ancestors specialized in greatest bridges. She is the former Emily Roebling of Trenton, N. J. The yacht will be 40 feet, 10 inches overall, more of an ocean liner by far than any other privately owned craft in the world.

FAVORS SETTLEMENT

GALION, Jan. 28.—The local post of the American Legion met Monday night in the post rooms, on the public square with 100 present. The most interesting business transacted was the straw vote on the proposed cash settlement of the adjusted compensation certificates. The vote showed 90 per cent voting for the immediate cash settlement.

THE STARS SAY—
For Thursday, Jan. 29

The stellar operations prevailing on this day point to a very lively and enterprising state of affairs. Under the true aspect of the luminaries there is promise of advancement in the post rooms, with a generally fortunate outcome for dealing with superiors or those in authority. There should be a high stimulus to initiative and new ventures, but the latter are under some threat of fraud or misrepresentation. Labor, property and kindred interests may be disappointing, but with prudence finances should be satisfactory. Those whose birthday it is may look for a lively and enterprising state of affairs during the year, with recognition or advancement from those in employment. New projects have a menace of fraud or duplicity, and land, property, winning, labor, etc., may be obstructed. With care against extravagant uses of finances these should flourish. A child born on this day should be energetic, ambitious and capable, but may incline to a lavish expenditure of its funds and have some personal inharmonies to meet.

The man who tells you he is no fool may be only mistaken.

LAST NIGHT at the THEATERS

**WAR DRAMA THRILLS
PACKED HOUSE FOR
OPENING AT PALACE**

**"Hell's Angels" Declared
One of Most Realistic
Pictures of Conflict.**

HELL'S ANGELS, one of the costliest films ever produced drew and deserved a packed house last night in the first of a four and possibly five-day run at the Palace. Beyond doubt, it is one of the most realistic and imposing war tragedies ever made.

The lives of two brothers, Roy and Monte Rutledge (James Hall and Ben Lyon, respectively), and the contrast in their characters are portrayed in the show. Both love the captivating Helen, (Jean Harlow).

Roy loves Helen devotedly, and possesses unswerving loyalty to his country. Monte is more selfish, sharing Helen's love unknown to his brother. Monte also shows a yellow streak in the pitch of battle.

Captured by the Germans after one of the most realistic and dramatic aerial battles ever photographed, Roy and Monte are given a choice of revealing the details of an American attack or be shot. Monte weakens.

Rather than see his country betrayed and hundreds of men sacrificed, Roy uses a ruse to obtain a gun, and kills his brother. He then forces the firing squad, dying with the secret still his. The American attack is a success.

Two short subjects complete the Palace bill.

AUTO LICENSE FEES SPLIT BY AUDITOR

**Thomas Distributes \$33,444.
Putting Total for Month
Over \$50,000**

Distribution of automobile license fees collected in Marion county passed the \$50,000 mark for the month of January today when County Auditor Earl E. Thomas split \$33,444.60 among the various subdivisions. It was the second distribution since the first of the month, the first cut amounting to \$16,851.40. A third is to be made later this week, according to Harry Smith, deputy auditor.

The split took half of the second split, receiving a voucher for \$16,722.45. Marion city received \$10,944.15 and the county was enriched by \$4,378.80. Other splits were as follows: Caledonia, \$44,450; Green Camp, \$32.95; LaRue, \$561.80; Moriah, \$153.35; Argenta, \$80.40; Prospect, \$146.50; and Waldo, \$48.

The second split represented fees collected from license plates for 3,588 passenger cars and 673 trucks. A total of 2,222 passenger cars and 401 trucks represented Marion city alone.

CAR HITS POLE

Students Figure in Accidents Here on Way to School.

Damage to a pole on North Main street belonging to the C. D. & M. Electric Co. was repaired yesterday afternoon following an accident yesterday morning when a roadster driven by Miss Elizabeth Pfiffer, 16, of the Walters road, skidded into the pole, knocking off the transformer.

Electric current was off in the neighborhood until the repairs were completed late yesterday afternoon. Miss Pfiffer and her two small brothers, James and Leo, were coming into Marion. All are students at St. Mary's Parochial school. Miss Pfiffer is a sophomore in high school. The slippers condition of the street yesterday at 8:15 a. m. caused the accident, she said yesterday.

The roadster, which was wrecked in the impact, was towed to the Ford garage.

**Children's Colds
Doubly Dangerous
With Flu Around**

While there is no cause for serious alarm over the development of scattered cases of flu in this locality, health authorities say that extra precautions should be taken to check every cold at the start. Unless treated promptly, colds tend to lower body resistance and may pave the way for an attack of influenza with all its serious complications.

Internal medication should be avoided except on the advice of a physician. Too much "dosing" often disturbs the digestion and lowers the vitality just when the child needs its body-strength most.

Applied externally, Vicks VapoRub can be used freely and as often as needed with no fear of upsetting the stomach.

Rubbed on throat and chest, Vicks acts thru the skin like a poultice or plaster, drawing out the tightness and soreness. At the same time, its medicated vapors, released by the warmth of the body, are inhaled direct to the irritated air-passages, loosening the phlegm, and soothing the irritation.

Of course, Vicks two-way action is just as effective for adults' cold-troubles, too.

Don't take chances with colds NOW!—Adv.

CALF CLUB TO HOLD MEETING

200 Expected To Attend; 75 Entries Are Received.

KENTON, Jan. 28.—A county-wide meeting of members of the Hardin County Calf club and their parents will be held Thursday night in the courthouse auditorium. More than 200 are expected to attend, 75 entries to club competition already having been received.

Rules of the club will be explained and plans of club officials to hold a combined livestock show, agricultural show and industrial exposition in Kenton next December will be discussed.

Leaders in the movement today are continuing their efforts to enroll at least 125 boys and girls in the club. Youth between the ages of 10 and 20 are eligible.

At the present time 12 boys and girls of the Kenton community are entered in the club, 22 from Forest have stated intentions of taking calves, and six are enrolled in the club from Dola, Ridgeway and La Rue high school vocational agriculture classes are expected to add a few more members, while other youths in the county are being solicited.

DIES NEAR KENTON

Mrs. Ida Albright Succumbs to Heart Attack.

KENTON, Jan. 28.—Heart attack caused the death of Mrs. Ida Albright, which occurred at her home south of the city on the Mt. Victory pike. She was born in Hale township on March 31, 1876.

Surviving are the husband, George; two step daughters, Mrs. W. A. Fullhart of Exline, Ia., Mrs. Dwight Pent of Pittsburgh, Pa.; one stepson, G. B. Albright of Columbus; two brothers, L. W. Winder of Addison, Mich., and W. C. Winder of Mt. Victory.

Funeral services will be held from the late home tomorrow afternoon. Burial will be in the Hale cemetery.

PRaises DOCTOR AS INDIGESTION PAINS VANISH

"For seven years I kept trying medicines, hoping to get relief from indigestion," says Mrs. Grace Wheeler, 133 Church St., Highland Park, Detroit, Michigan. "Nothing really helped me. I got so I never felt quite right; was tired and weak. I would blot and have awful sick headaches after every meal."

"Now it's a different story. I got back most of my lost weight in a few months and feel fine. Nearly everything agrees with me. When anything starts to disagree, a tablet of Diapiesin has me comfortable in a minute."

"My doctor ordered me to take these wonderful tablets and I sure thank him for his advice. They're just like candy to eat; but they work better than any medicine I could find."

For years, leading physicians have endorsed Pape's Diapiesin. All drug stores sell the handy boxes. Get one and the next time heartburn, headache or nausea appears, soothe your stomach and make digestion complete with one or two of the pleasant, candy-like tablets. If you would like a personal demonstration of their merit before buying, write "Pape's Diapiesin," Wheeling, W. Va., for a FREE trial box.

EDMONDSON GETS SENATE APPROVAL

O. K. of Industrial Relations Appointee Completes White Cabinet.

By The Associated Press.

COLUMBUS, O., Jan. 28.—The cabinet of Governor George White was complete today, following confirmation by the senate of the last of his administrative advisors, Thomas A. Edmondson of Urbana, as director of industrial relations.

The senate voted Edmondson's confirmation 18 to 5 yesterday after the senate labor committee had recommended it by a vote of four to two with one member, Senator James A. Reynolds, Democrat of Cleveland, not voting. Reynolds did not vote when the matter was presented to the senate.

Senator John P. Bower of Logan county was the only Democrat to vote against confirmation. Bower represents the district that includes Marion. The Ohio Federation of Labor had protested Edmondson's selection for the post.

Governor White still was considering today whether he will ask the senate to confirm L. E. Felt of Lunenburg, whom he has selected for prohibition commissioner, or name another candidate.

THE FRANK BROS. CO.

Auditor Tells Rotary Where Tax Money Goes

Thomas Says Crime and Charity Take Large Portions of Taxes in Marion County; Doubts If Amendment Will Bring Out Intangibles as Predicted.

Advocating a more equitable distribution of gas tax money that would "get the farmers out of the mud," and urging a new taxing setup which would more evenly divide the tax burden, Earl E. Thomas, county auditor, yesterday discussed various phases of taxation before the Marion Rotary club.

Thomas based his plea for a more evenly divided tax burden after stating that only one of every seven persons actually pays taxes.

Crime Cost Is Heavy

The handling of criminals and charity were listed by Thomas as the big items of expense in the county government.

Excerpts from his talk follows:

"Taxation is the greatest problem

facing the American people today. There has never been a session of congress and I doubt if there has ever been a session of any general assembly that has not had more or less to do with some sort of tax legislation.

"By this system of taxation our lives and property rights are protected. This protection is for all, and every citizen should contribute accordingly to his or her respective ability.

"A tax is a contribution levied by authority from the people to defray the expenses of government or other public service. Adam Smith, a distinguished writer on political economy, laid down four principles of taxation which have been generally accepted by political economists. 'First, the subjects of every

state ought to contribute to the support of government as nearly as possible in proportion to their ability to pay. Second, the tax ought to be certain and not arbitrary. Third, every tax ought to be levied at a time or in a manner most convenient for the contributor. Fourth, every tax ought to be so contrived as to both take out and keep out of the pockets of the people as little as possible over and above that which is necessary for the public treasury."

Time Brings Changes

"Radical changes have taken place in the last 30 years, such as the centralization of schools. Four years ago the Smith one per cent law fixing 10 mills as the legal limit of taxation was repealed and expanded to 15 mills.

"A great many persons complain of high taxes. The people themselves are responsible for high rates in any political subdivision. While the county auditor figures the tax rate, he is not responsible for the rate, it is high or low. It is his duty only to see that the rates are within certain legal limitations.

"I am opposed to any tax measure that will require additional levies to be voted outside the 15 mills, since additional levies would be on real estate only as provided in the amendment and will not affect any other class of property."

"The farmer and other property owners have become disgusted with our present system of taxation, since it has become nothing less than confiscatory."

Thomas "put little faith in the promise of persons who boasted the tax amendment that millions in intangible property now hidden because of the high rate will be voluntarily listed under a low rate. He said, 'If the people will hide taxable property of a high rate, it will likewise remain hidden under a low rate.'

"It is said that only one out of seven pay any tax for the support of government. Will the general assembly enact some sort of tax legislation that will require the other six to contribute their just share of the tax burden, or will the people be compelled to vote additional funds outside the 15 mills which will affect real estate only?"

"In speaking of tax relief, I do not mean that there should be less revenue for government function. Tax news can be enacted whereby more revenue will be received for the operation of government, and yet the tax burden on real estate can be reduced."

Speaking of the need of an equitable distribution of gasoline tax, Thomas said, "Each township of the state should receive at least \$3,000 a year and then the townships could eliminate all road levies from their rates."

"The gas tax is one of the most equitable and just the state has. I believe I am safe in saying the gas tax is paid by six out of 10 persons."

Thomas endorsed the proposed plan of increasing the cost of automobile license plates and doing away with the licensing of automobiles for taxation.

Late Costs Here

Bearing out his statement that crime and charity are among the heaviest burdens in county government, Thomas asserted that during 1930, the operation of Marion county courts cost \$38,867 and that the maintenance of the jail, workhouse and detention home cost \$19,300. Among the expenditures for charity during the year was \$27,000 for the county home, \$19,718 for the children's home, \$4,961 for blind relief, \$8,686 for mother's pensions, \$2,073 for crippled children. These expenses with others swell the total charitable expenditures to \$74,332, he said.

In closing, Thomas urged every public official to exercise the same care in spending tax money they would use in their own business.

Among other officials present were Mayor L. Don Jones, Safety Director T. E. Sennanline, and County Treasurer Bert J. Shelton.

20 Couples Eligible for Silver Wedding Parties

Unless death, divorce or some other agency has caused a separation, 20 couples who obtained marriage licenses 25 years ago in Marion county will be eligible to celebrate their silver wedding anniversaries in February.

The list, as revealed by marriage license records in probate court, together with dates the licenses were issued, is as follows:

Feb. 1—William D. Miller and Gertrude Blaher, both of Marion.

Feb. 3—Milton B. Augustine of Marion county and Docie A. Strine of Highland township.

Feb. 5—Frank G. Weber and Bertha Hardin, both of Marion.

Feb. 6—Cheney J. Behan of Adams and Daisy Johnson of Montgomery townships; Joe L. Mattoon of Union county and Gladys F. Bader of Bowling Green township.

Feb. 8—Newton Smith of Columbus and Marie Zahn of Marion.

Feb. 10—Ernest Frederick Main of Delaware county and Ora Mary White of Prospect.

Feb. 12—Guy McDonald of West Mansfield and Fannie E. Weaver of Prospect.

LIST 99 ACCIDENTS HERE IN DECEMBER

None Fatal, Records of State Industrial Commission Report.

Marion county had 99 industrial accidents in December, none of which were fatal, according to figures compiled by the state industrial commission and released today.

None of the local accidents caused permanent partial disability, although 22 occasioned a time loss of over seven days, nine others resulted in a loss of seven days or less and 68 were medical cases causing no loss of time. In November Marion county had 85 accidents with no fatalities.

Ninety-five fatalities were reported for the month throughout the state, a number four less than for the same month a year ago. Non-fatal accidents were 3,911 less than in December, 1929, but 885 more than in November.

Gifted Musician Back in Prison at Own Request

By United Press. SAN QUENTIN STATE PRISON, Calif., Jan. 23—A note of sadness crept into San Quentin's grey-clad prison band with the "homecoming" of Demasius Carola Gallor, former prison band master and nationally known composer.

For 14 years—while serving sentence for murder—Gallor wielded a convict's baton and wrote the stirring marches that sent his fame far beyond the guard-studded walls. Then 18 months ago he was paroled.

And now he is back again—by his own wish—among the comrades he loved, amidst the surroundings that he said made him useless in a fast-changing society. The colorful and rosy music master attempted to pick up his own trails in the studios of Hollywood, but he was not successful.

BROKEN, ill and penniless he applied a short time ago to be allowed to return to San Quentin, his "home," and there spend the remaining days of his life. The request was granted by Warden James Holohan on "humanitarian grounds."

But it will be long before Gallor can assume his old dictatorship over "his orchestra" here. There will be many months in the hospital, physicians said, to rebuild a body and mind ravaged by the "misery of freedom."

In the old days Gallor was noted for the despotism with which he ruled the convict orchestra. He is greatly loved by the other inmates despite his longing of "jazz" and his obvious preference for music of his own composition.

TO CONFER DEGREE

Masonic Lodges To Hold Joint Meeting Tonight.

Members of Marion Lodge No. 70, F. and A. M., will be guests and confer the degree at the meeting of Sojourners Lodge No. 653 F. and A. M. tonight in the Masonic temple.

Other activities in Masonic circles this week will include an "Old Timers" banquet at which former members will be entertained by members of Marion chapter, De Molay Friday night at the temple and later put on the degree work. Officers and a number of the members of Marion chapter No. 62, R. A. M., will go to Tiffin, Thursday night where they will attend the annual district meeting. A meeting of the officers is scheduled for 5 p. m. and dinner will be served at 6 p. m. The work will follow immediately after the dinner it is planned.

AMAZING NEW PROTECTIVE ARMOR FOR NOSE, HEAD AND THROAT PASSAGES

Immunity for World Population, says Science; Passless Barrier, Quick End for Cold Germs; Millions Benefit, End of Colds in Sight?

TOLEDO, OHIO; Rex Research, of this city reports the end of two and a half years study of a brand new idea in fighting colds. As a result there has been developed a new preparation which when inserted in the nostrils and snuffed into the air passages of nose, head and throat, throws a protective film of medicated armor against cold germs over them.

The preparation is called EFF-OH, and is said to be the most decisive step yet to be made towards ridding the world of the "cold" menace, forerunner of serious diseases of the respiratory tract, such as pneumonia, tuberculosis, catarrh and sinus trouble. In view of the fact that it is estimated that full three quarters of the population is subject to colds during inclement weather and sudden temperature changes, this announcement is big news for chronic cold-catchers and promises millions of dollars in time and expense lost thru colds, not to mention the humiliation of spreading colds and the coughing, wheezing discomfort of those afflicted.

How EFF-OH Acts

Secure a big, generous family tube of EFF-OH at nearest drug store. Insert a pea-size portion in each nostril. Snuff it into the breathing passages. Feel it diffuse itself soothingly over membranous linings, gently allaying irritation, pacifying inflamed tissue. Experience wonderful sensation of relief. Again breathe in ease and comfort.

Let that Coughing, Hawking, Wheezing, Sneezing Cold

be the last you'll ever have. Bar cold germs forever from your life.

Chronic Cold Catcher Sings With Joy

"The colds I used to have every winter and spring were simply terrible," says Miss Therese Wilcox, Newark, N. J. "My eyes ran, my nose ran and I was miserable and uncomfortable. The discovery of EFF-OH was a divine providence in my life. I have used EFF-OH as a daily preventive and in case of going through the usual cold-catching weather I haven't had the least sign of a cold for the first time in my life. I am singing with joy over the wonderful results obtained."

First: EFF-OH kills the germs of the cold you have. Next, it loosens phlegm, breaks up catarrhal collections, hard-ened mucus and stops the maddening tickle and soreness of inflamed membranes. Stomach-disturbing barking stops, germ-scattering sneezing ceases, breath comes free. Delightful feeling of relief comes immediately.

Safe, Harmless

By actual scientific test, EFF-OH actually kills cold germs, affording the most permanent relief possible. Instead of simply soothing the irritation temporarily, Yet EFF-OH is harmless to the most delicate tissue and may be used safely in cases of children.

Prevents COLDS Stops COLDS Quick!!!!

End the cold you have today, quit prevent the cold that may come tomorrow, in sudden changes of temperature, harsh climatic conditions exposure or contact with others having coughs and colds.

Stop your own discomfort at once at the same time, do your share to the spreading of colds to others.

Adopt the sensible, effective method. EFF-OH method.

Go immediately to nearest drug store. Say you want EFF-OH, the way to prevent and curb colds. In the way to prevent and curb colds. In the way to prevent and curb colds.

On EFF-OH. It looks like ordinary saline but you will soon learn the remarkable difference almost the very first minute you apply its protective film of medicated armor to the lining of your breathing passages.

Free Test Offer

Take home a home size tube of EFF-OH. Use as directed on the cold you have now. If you are not amazed and delighted with the results the manufacturer of EFF-OH will gladly refund your money. After you have found what it does to relieve you, use daily as a preventative against colds.

MAHATMA GANDHI ON
WAY TO SACRED CITY

Leader of India's Millions
Urges Continuation of Fight
for Freedom.

By The Associated Press.

BOMBAY, Jan. 28.—Leaving behind him a message to India's Nationalist millions that their fight for independence must go on, Mahatma Gandhi today speeded by train toward Allahabad, central India, where he is gathered most of the Nationalist working committee.

In Allahabad, India's "city of the dead," on the sacred Ganges, he will visit the bedside of one of his closest friends, the aged Pandit Jawahar, father of Jawahar, a member of the all India Congress, and discuss with him the offer of an eventual dominion status for India.

He faces tonight, when he leaves there tonight, a welcome which is enthusiastic and which is expected to give him a triumphal ovation. His arrival yesterday upon his arrival in Allahabad, he was greeted by a throng of 86,000 people, one of the largest in the world, and he was sent to hospital.

Unemployed Swarm
to Food Truck Wreck

By The Associated Press.

SALEM, O., Jan. 28.—A crowd of unemployed men swarmed to a food truck today when a truck, carrying food, was wrecked on the main line of the Port of Columbus for several hours.

Police, 19, and Theodore, 21, riding on the truck, were taken to the hospital badly injured. Witnesses said they were through the crossing gates.

Police had a busy time patrolling the wreck of the truck along which the unemployed men were gathered. They estimated that 300 men were trying to get the food.

Bird-Ginniss Post
Joins Auxiliary in Party

By The Associated Press.

ST. LOUIS, Mo., Jan. 28.—The Bird-Ginniss Post No. 162, of the American Legion, joined with the auxiliary and their families for an annual party last night at the American Legion. There were approximately 125 present.

The program was furnished by Edward Zachman and his brother, Edward Zachman.

A business meeting, B. F. Rolfe and Joe Ralston were named; a committee to organize a post drum and light refreshments were named. The post will meet Feb. 10 to observe the birthdays of Lincoln and Washington.

Two Marion County Men
To Get Parole Hearings

Two inmates of Mansfield reform school sent up from Marion county will be given parole hearings on Feb. 10, according to parole notices received from the reformatory.

J. C. McClellan, one of the two, is sentenced to serve an indeterminate term last March 10 for issuing a check without sufficient funds, while Curtis Sheppard, the other, was given an indeterminate term on Jan. 14, 1930, for auto theft.

RETIRED MERCHANT OPENED GROCERY
STORE AT UPPER SANDUSKY IN 1867

UPPER SANDUSKY, Jan. 27.—Last week David Moody, retired merchant and Civil war veteran, quietly celebrated his ninetieth birthday. Mr. Moody was born in Dekalb county, Ind. Jan. 27, 1841.

When five years of age he moved to this county with his parents, Timothy Y. and Susan Bousher Moody, where his father purchased a large tract of land in Salem township.

Born during the closing months of the administration of Martin Van Buren, he has lived to witness 24 different presidential administrations. The United States has grown from a country of 17 million to one of 122 million. During his long and eventful life 22 states were added to the union. When he came to this county with his parents, Upper Sandusky was only a year old. Having been established by a special act of congress in February, 1845.

On May 1, 1864 he enlisted in Company A, 144th O. V. I., and served under Colonel S. H. Hunt, also from this county. His company served in Maryland and Virginia and was used in guarding wagon trains from Harpers Ferry to Winchester.

Following the war, Mr. Moody taught four terms of school in this and Marion county. In 1867 he entered the grocery business in partnership with John W. Linn. At the end of seven years Mr. Linn sold his interest to John S. Curless. The partnership with Mr. Curless lasted for seven years at the end of which Mr. Moody became sole owner of the store.

In 1888 he built the present brick store room on the corner of Sandusky avenue and Walker street. Mr. Moody stated that the corner has been used for a grocery store for the past 85 years. He retired

Church Crowd
Is Terrorized by
Trio of Bandits

By International News Service.

CHICAGO, Jan. 28.—Three systematic bandits went about their work undisturbed by the shrieks of women victims as they cornered 28 men and 15 women in St. Hedwig's church, robbing their victims after terrorizing them for nearly an hour.

Posing as members, the bandits entered the church and took part in the monthly meeting of Community club No. 1 of the Polish Catholic Union of America.

As a temporary chairman called for nominations for president one bandit drew a revolver and shouted: "Hands up."

THREE revolvers were turned on the crowd and the victims were lined up against the wall where they were forced to come forward one at a time and deposit their cash and valuables on a table. Only money was taken.

The shrieks of several women failed to shake the gunmen's calm as they went about their task. Four women fainting. After 45 minutes of systematic search the gunmen backed to the door and escaped.

Police estimated the loot to be more than \$100 in cash.

Police Locate Clues in
Hunt for Bank Robber

WASHINGTON, C. H., O., Jan. 28.—Police were working on two or three leads today in their search for the robber who escaped with \$3,127 from the First National bank yesterday. The loot was first believed to have been \$1,800, but investigation revealed the larger sum had been taken. One of the clues leads to Lima. When the robber jumped over a desk in the bank he dropped a note which has been written on a circular advertisement of the State Shoe & Dry Cleaning company of Lima. It contained a warning to the bank employees to hand over the money under penalty of death.

TAX LEGISLATION TO
CAUSE PARTY FIGHT

Republican Majority Insist
Governor Share Responsibility
for New Laws.

By The Associated Press.

COLUMBUS, O., Jan. 28.—The stage was set today for the first partisan fight over drafting new tax legislation in the Ohio senate.

The Republican majority, taking the view that Governor White should share responsibility with the legislature for new tax laws enacted in accordance with the classification tax amendment which became effective last Jan. 1, are proposing that the executive participate in naming a special committee to work out the new tax laws. The question was set for first place on this afternoon's program of business.

A constitutional amendment to make all state offices four year terms is proposed in a resolution on file in senate today.

The resolution, presented by Senator Robert Taft, Republican of Cincinnati, yesterday would provide for extension of the terms of governor, lieutenant governor, secretary of state, attorney general and state treasurer to four years. If adopted by the voters the first election would be held in 1934, the new officials taking office the next January.

By United Press.

COLUMBUS, O., Jan. 28.—A further reduction in the state payroll will be made by Governor George White, he told members of the Ohio legislature at the annual Chamber of Commerce dinner for legislators Tuesday night. Governor White said he intended to continue his policy of economy in government.

He said, however, he would not allow the program of enforced economy to go beyond reasonable limits.

CLARA GUARDED

Death Threats Come to Movie Star
in Letters About De Boe Trial.

By International News Service.

HOLLYWOOD, Calif., Jan. 28.—Friends close to Clara Bow, motion picture star, today indicated that the present guard will be maintained about the screen star's Beverly Hills home until she leaves for a three weeks' rest.

The guard was doubled last night after Miss Bow had received death threats in letters which commented on the trial of Daisy De Boe, the screen star's former secretary, who was convicted of a charge of embezzling \$825 from the actress.

Following the threats it was feared that one of the writers might break into Miss Bow's home, where she is convalescing from a serious cold.

Farmers' Corporation
Has Rapid Growth

By International News Service.

JEFFERSON CITY, Mo., Jan. 28.—Since its organization on July 1 last the Farmers National Grain corporation has handled over 90,000,000 bushels of grain, thus becoming the largest grain concern in the United States, Sam R. McKelvie, wheat member of the federal farm board, told the Missouri farm bureau federation here today.

In addition to this, he said, the member cooperatives of the corporation have handled many millions of bushels.

Marion Girl Still
Missing from Home

Efforts to locate Miss Elsie Mann, 14, daughter of Mr. and Mrs. Charles Mann of 506 Avondale avenue, who left home two weeks ago, have proved fruitless, her mother said today.

The girl disappeared on Sunday, Jan. 11. Since that time nothing has been heard of her.

She was believed to have gone to West Virginia where she has relatives, but the latter report they have not seen the girl.

COMMITTEE FINISHES
AKRON GRAFT PROBE

Summit County Grand Jury
To Review Evidence Collected
in Investigation.

By International News Service.

AKRON, O., Jan. 28.—Completed with the testimony of Leo Isaar, allegedly abducted "corn sugar king" of Akron, who hurled sensational charges against Chief of Police Frank J. Boss, evidence of suspected crime graft in this city's municipal offices collected by a special investigating committee of city council today awaited review by the Summit county grand jury.

Mounting the stand after he had been attacked in the testimony of several witnesses at previous sessions of the probing committee, Isaar shouted accusations that created a furor in the council chambers.

"Liar," he barked at Boss, "it was my money and nothing else made you police chief of Akron."

Isaar made the charge after testifying for two hours before the committee. His testimony resulted in a confusion that was not quieted until committee officials threatened to call police.

Isaar involved Boss in a pact with Harry R. (Dart) Moran, in which Moran was declared to have received \$3,000 from Isaar to have Boss appointed as chief of police.

Marine Commander Must Explain
Speech; Italy Protests Remark

By The Associated Press.

WASHINGTON, Jan. 28.—Two capitals today awaited for a tighter and orator, Major General Smedley D. Butler of the marines, to explain his recent speech in Philadelphia.

Washington wanted to give the explanation to Rome, and if remarks attributed to the marine officer are true, Rome wants an apology.

General Butler was quoted as saying Premier Mussolini remarked, after his motor car ran over a child: "What is one life in the affairs of a state?"

A formal protest was made to the state department yesterday by the Italian ambassador, Giacomo De Martino.

There wasn't a single traffic fatality during

The key witness in the Wayne county grand

ditions in Detroit was shot and seriously

wounded by a gangster, evidently with the in-

tention of sealing his lips. Another illustration

of the boldness with which the criminal world

is working to defy the law and frustrate

justice.

Spring-like zephyrs are reported from the

Canadian West, where the temperature is nor-

mally forty degrees below zero at this season

of the year. The zephyrs are active, the

robins chirp with their morning songs and

butterflies add their tiny bits of color to the

scene. Down here in the heart of the garden

spot of the world we are not fighting for spring

exactly, but if the weatherman will pull the

rain plug and keep it out for about three

days, our people will call him blessed.

To Escape the Flu.

The influenza situation in this country has

become such that Surgeon General Cumming,

of the public health service, is emphasizing

new "public precautions and personal hygiene

practices upon which its prevention de-

pends" that we of America may not suffer

such an epidemic of the disease as is sweeping

off of western and central Europe.

"Go home and go to bed," is the surgeon

general's keynote rule in its check and cure,

"and call the doctor."

"Remain in bed, eat simple diet, take plenty

of fluids such as water, fruit juices, milk,

bouillon and hot soups at frequent intervals.

"Do not take any so-called cure. There is

no specific cure."

This procedure, Dr. Cumming explains,

should prevent the influenza patient from be-

coming seriously ill. Influenza itself, he states,

is not fatal, but the pneumonia which often

follows it often is. Rest is prescribed as most

important. "Remain in bed until all symptoms

disappear and then, under the physician's ad-

vice, return very gradually to the usual phys-

ical activities, being sure to rest before becom-

ing tired."

The surgeon general advises eight to ten

hours' sleep for the able-bodied every night

under warm covers and with windows open,

the eating of a moderate diet, the drink-

ing of six to eight glasses of pure water daily,

and the wearing of clothing warm enough to

prevent the chilling of body surfaces.

Avoid people with colds, the doctor goes

on; avoid utensils in common use and wash

the hands frequently, especially before eating;

avoid the use of so-called preventives; avoid

alcohol and stimulants of all sorts; walk as

much as possible and keep as much as you

can in the open air.

There may be exceptions, there always are,

but the rules prescribed by the doctor are not

beyond compliance on the part of the great

majority of us. If there is general observa-

tion of these safeguards of commission and

omission, there should be no recurrence, de-

spite the greatly increased number of in-

fluenza cases reported in the country during

the last two weeks, of a flu epidemic such as

that which swept the land during the World

war and claimed victims by thousands.

For the Governor's Consideration.

It is not to understand how those using

the improved roadways for the purpose of

moving passengers or freight, or both, are in-

clined to consider a highway simply as a way

between two points. To such, naturally, the

less the mileage of the highway, the greater

is the appeal. Their desire and aim is to save

time by saving distance. No objection can

be taken to this desire on their part, but serious

objection may justifiably be raised, and

should be, when they seek to influence the

routing and marking of great transcontinental

highways. Their steady use of the highways

makes the routes known to them. They need

no markers to tell them they are on the

right road. Scenery means nothing to them.

Accommodations along the route mean little,

and places of historic interest still less. The

route which can be covered in the shortest

time means most to them.

But such is not the case with the ordinary

motorist, either the motorist touring the

country in his own car or the motorist driving

from city to city on business or pleasure trip.

To both these classes scenery has strong ap-

peal. Nine times out of ten they will take

a somewhat longer route abounding in pleas-

ing roadside views and vistas to a shorter

one through somewhat bleak, if not desolate,

territory. To both the latter classes good

hotels and restaurants have their appeal, and

to the tourists places of historic interest mean

much. Often the visiting of such places is

the chief purpose of their tour.

And yet we are informed and have reason

to believe, that a big corporation planning the

running of a line of buses and trucks is the

chief force behind the proposal to change fed-

eral route thirty from the Harding to the Lin-

coln highway between Mansfield and Delphos.

The only possible argument for the change

from the one highway to the other being that

it will eliminate a distance of nine and a half

miles. Most of the Lincoln highway route

between Mansfield and Delphos is common-

place, so far as scenery is concerned, and

much of it far worse than that. The hotels

along the route are inferior, and it is more

dangerous as the result of a number of very

bad railroad grade crossings. The Harding

highway route offers excellent hotel accom-

modations and splendid restaurants, finer bus-

ness places should the traveler desire to stop,

pleasing roadside views, some of the scenery

being beautiful, and it leads to the Harding

memorial, to which thousands travel weekly.

The year around, coming alive through winter

snows and in sunshine and rain.

These are matters which Governor White

should consider before taking action on the

proposal to change route thirty, and we believe

he will, for certainly the interests of motor-

ing America as a whole should be considered be-

fore the interests of those using the highways

of the state at little expense for the purpose

of gain, or the selfish interests of communities

along either of the routes—and we say this

despite the fact that this, our home city, is

located on one of them.

Great Britain is planning to cut wages and

prices ten per cent. to regain lost export

trade. It may work all right, but from this

distance it looks as though the burden of the

cut will fall upon those least able to bear it.

Seventy-Two Years Old.

William Hohenzollern, once known to the

world as William II, emperor of Germany,

celebrated his seventy-second birthday Tues-

day. Remarking the occasion, the Associated

Press said: "Here—Down, Holland—where the

former Kaiser lives like a country squire, he

worked as usual, in his rosiest, digging and

chopping wood like one of his Dutch laborers."

There are few people anywhere, even among

Herr Hohenzollern's political enemies in Ger-

many, who begrudge him, as he enters on his

seventy-third year of life, succeeding birthdays.

A strange reversal of feeling that can not

but come to the attention of all who remem-

ber how the Kaiser was hated during the

World war. True, "time heals all wounds,"

but in the hectic, hating days following 1914

it hardly seemed possible that enemies ever

could be forgiven.

But today the man, who was popularly

depicted less than two decades ago as a demon

crushing babes under his iron heels, is a

kindly-featured old gentleman with a curly

beard and a quizzical expression. The world

forgets. Already there are people who never

heard of Kaiser Wilhelm. The spiked helmet,

the mailed fist, the gloowering countenance and

other artifices of the cartoonist never have

aroused them. And in Doorn, the man popular-

ly blamed for turning the world topsy-turvy in

1914 works quietly in his rosiest, digging,

chopping wood and devoting a great deal of

time to determining who it was that really

started the war after all.

William S. Lee, president of the American

Institute of Electrical Engineers cites Muscle

Shoals as a "colossal political and govern-

mental blunder," but he doesn't say whether

the blunder consisted in wasting money on it

or in offering the opportunity its construction

has resulted in costing the country many

times the amount expended on it.

A bank robber, who is to be executed out in

Canon City, Colorado, next Friday, for mur-

der, has written 240 letters one of which is

to be sent to his mother each month for the

next twenty years in the hope of concealing

from her his fate. Even the most hardened

criminals would not have their mothers know

the lives of crime they lead or the fates which

overtake them.

It is hinted that Alcee Simple McPherson

will quit as head of Angelus temple out in

Los Angeles. Unless the temple has de-

veloped a most capable understudy, it may

just as well prepare to pass in its checks as a

going concern.

Some of the more moderate senate dyes

have joined the senate votes against the pri-

vate home search-and-seizure clauses of the

Howell bill by which it is planned to trans-

form the District of Columbia into a desert.

Apparently some of our legislators have not

yet learned. Senator Howell among them, that

the surest way to make a law ineffective is

to frame it as to arouse antagonism from

the very time of its proposal.

AND NOW LEGISLATIVE DROUGHT.

Editorial Opinion.

THE GOVERNORS' CONFERENCE.

Governor Roosevelt did a fine thing in inviting governors of the leading eastern states to discuss means of dealing with economic crises. It is well to strike while the iron is hot. But the hammer must be cold. Outside the capital at Albany where the governors were assembled marched radical labor pickets demanding relief measures "without any further conferences." Devising of more consideration was the word of caution, uttered by one of the speakers in the executive chamber, lest industry, now prostrate, be overwhelmed by too sudden and too heavy new burdens. It would be folly to rush into hastily conceived legislation. But it would be worse to sit still and do nothing.

Plainly, the present emergency has had a highly sobering effect on our mood. We are not so cocksure as we used to be, not so confident that all is well with our American industrial system. Fundamentally it is sound. But no industrial system is perfect which permits the misery and suffering which we have lately witnessed. The outpourings of charity, as from some magic horn of plenty, have been magnificent. But they ought not to be necessary—at least not to this end and on this scale. "It is doubtful whether, in the present temper of this country," said Leo Wolman at Cleveland, "the prospect of millions thrown on the generosity of the community by industry will again be tolerated."

We have been through depressions before, of course, and we shall go through them again. But we have more experience than ever before, and it is for us to turn the lessons of that experience to our future advantage. This is particularly true of the various systems of unemployment insurance, high here and abroad. No one in his senses would want America to copy the British system. Its best friends admit that the pooling of the unemployment funds of all industry there has encouraged idleness. Some of its advocates on this side of the Atlantic naively suggest that we adopt the dole, but without any of its excesses. As some suggest politics without favor, or children without tears, if England and Germany are too far away for the near-sighted, they have only to glance at the history of pensions and other veteran benefits in this country. —New York Times.

LEINSTEIN AND CHAPLIN.

Explanations of the enormous fame and popularity of Professor Einstein vary, and just now it is the fashion for highbrows to sneer at the rest of us for acclaiming one whom we can not understand. They say it is a manifestation of the mystic streak in human beings that attracts them to whatever is beyond their comprehension. We believe it is much simpler and more flattering to us than that. From one trifling thing and another we have caught the first quality of the great physicist, not as a scientist, but as a man. Having said, he said so in terms that left our conventional peace societies gasping. The other night he had dinner with Charlie Chaplin. Somehow, we know that they had a good time and that both entirely forgot they were stuffy shirts and world celebrities. —Columbus Citizen.

When Chase Equivocated.

BY J. H. GALBRAITH.

It was Salmon P. Chase's invariable custom to keep a record of his callers, their mission, and what was done about it, or agreed upon. Nothing was left to mere memory. He would not equivocate, and never permitted it to be reported to callers that he was out when he was in. Speaking of this trait his biographer said that he never knew Chase to approach equivocation with a caller. There was, he intimated, a possible single exception.

The biographer was Dr. J. W. Schucker. He declared this person, as he was about to leave Chase's office, took a letter

with their genius, bulled it with their money, or "bulo ran," living and doing unknown as there a place in Einstein's and Edison's universe, in which they meet and talk it over? Or is it true that "the rest is silent?"

THE FORMER KAISER reached his seventy-second birthday yesterday. He has seen both sides of the shield of fate. The writer saw him for the first time at Mentone, long ago. His grandfather, William, was alive then, and Sir Morell MacKenzie was operating on his father's throat to keep him alive, that his wife, daughter of Queen Victoria, might become widow of the Emperor Frederick, not merely widow of a Prussian crown prince. She did become empress and dowager with dignity and a big income.

Now the young Hohenzollern was seen riding in the jubilee procession of his grandmother, Victoria. He was dressed in pure white; his well trained charger was magnificent. He outshone the whole parade. Now he is an old man, in exile, sawing wood for exercise. He had much of the will power of his ancestor, the great Frederick, and could have been Germany's greatest commercial emperor had he kept out of war. But he lacked Frederick's military genius. You can't inherit that. He mistook the greatness of Bismarck and Von Moltke for Hohenzollern greatness. Now his son has set, and Europe, that once watched and feared him, makes its plans without considering him. There is the bitterness—to be nothing.

TELEVISION, which means "seeing afar," has its real beginning, and in the usual way. Men made tools of bronze to kill each other more easily than with flint, and the iron age came to supply better killing tools. Now bronze and iron are useful apart from killing. Television is used to flash stock quotations, a whole row of them, to any earthly distance in a fraction of a second, making the stock ticker as old-fashioned as the stage coach. Young Mr. Vincent Astor, catching turtles on the Galapagos Islands, could have on his yacht an instrument that would show him, before any Wall street man could know it, that he made a mistake buying sugar stocks.

Later television will be useful apart from stock speculation. Some Einstein, Moses, Maimonides or Spinoza of the future may be seen and heard by the whole world standing on Mount Ararat, sending out a message of vital importance that nobody but himself will understand.

GANDHI is freed by Britain after nine months in a comfortable jail, and is said to find freedom oppressive. Leading 320,000,000 Asiatics is not an easy task, when 60,000,000 of them insist on killing the others, and there is no particular place in which they can be led. Brave Britain out of India and millions would die off or be killed off every year, and Gandhi, intelligent and well meaning, knows it.

UNCLE SAM shot at a British rum ship, killed the captain and got \$300,000 worth of whisky. Canada wants to know why. Uncle Sam has seized another British ship, the Baby Castle, killing nobody this time, and seizing \$120,000 worth of narcotics. No questions asked about that. But the British may well ask how we expect them to pay their war debts if we interfere with their most profitable trade.

Church Attendance
Slumps, Report Shows

Attendance at young people's meetings last Sunday in the city and county slumped, a report from the Marion County Ministerial association shows. The report was given as a part of the Go-To church movement sponsored this month by the association. The attendance of young people in 26 churches last Sunday, totaled only 770.

McKinley Day Program
Given at Richwood

RICHWOOD, Jan. 28—A McKinley day program in charge of the patriotic instructor, Mrs. Isabelle White, was given at the regular meeting of the W. R. C. Tuesday afternoon. The program opened with music, "Lead Kindly Light." Mrs. Nettie Selg gave a sketch of the life of McKinley. Mrs. Scott Collier, reading, "The Sorrow of the Nation," a reading was given by Mrs. Eva Stults. By vote it was decided that the noon day lunch at the school to the under nourished children will be served one day by the order. The next regular meeting will be Feb. 10.

MRS. LEA HOSTESS

ASHLEY, Jan. 28—The Ruth Sisters' class of the M. E. Sunday school was entertained at the home of Mrs. Walter Lea Monday night with Mrs. Vincent Westbrook as assistant hostess. There were thirteen members and the following guests present: Mrs. Dorothy Richmond, Mrs. F. L. Lea, Mrs. Thelma Powers, Mrs. Zoe Westbrook and Mrs. Maud Savage.

A woman in love is sentimental, a man in love is silly.

Delightful Program Marks
Tuesday Study Club Meeting

A DELIGHTFUL program and social hour entertained members of the Tuesday Study club and their guests at the guest day party given by the club last evening at the home of Mrs. E. C. Watters of 1133 East Center street. Baskets of Tah-man roses gave a colorful touch to the rooms and the table, from which a charmingly appointed luncheon was served, was centered with a bouquet of sweet peas and tulips. Silver candlesticks holding green tapers completed the decorations for the table and guest favors were such as rain-bow shades. Presiding at the table were Mrs. Watters and Mrs. D. W. Disbennett, president of the club.

Mrs. Frank Sifrit, guest speaker, gave an entertaining talk, "Women Around the World," and short talks were given by Mrs. W. N. Harder, Mrs. H. K. Mouser, Mrs. N. L. Gebhart, Mrs. Bernard Smith, Mrs. D. H. Lincoln, Mrs. Eugene Brown, Mrs. J. E. Schmeltzer, Mrs. Walter E. Hane, Mrs. Alfred Donithen, Mrs. E. For
TEETHING
troubles

FUSSY, fretful . . . of course babies are uncomfortable at teething time! And mothers are worried because of the little upsets which come so suddenly then. But there's one sure way to comfort a restless, teething child. Castoria—made especially for babies and children! It's perfectly harmless, as the formula on the wrapper tells you. It's mild in taste and action. Yet it rights little upsets with a never-failing effectiveness.

That's the beauty of this special children's remedy! It may be given to tiny infants—as often as there is need. In cases of colic and similar disturbances, it is invaluable. But it has every-day uses all mothers should understand. A coated tongue

calls for a few drops to ward off constipation; so does any suggestion of bad breath. Whenever older children don't eat well, don't rest well, or have any little upset, a more liberal dose of this pure vegetable preparation is usually all that's needed. Genuine Castoria has Chas. H. Fletcher's signature on the wrapper. Doctors prescribe it.
